

# SEW MUCH FUN

Holy Trinity Catholic Academy - Shelton

## 2023-2024

# PROJECT UPDATE

Grant Amount: \$1,742

Project Cost: \$1,807

20 Students Impacted

Grades 5-8

**PURPOSE:** To purchase eight sewing machines and starter kits to increase project based learning with our students in our Makerspace and Innovation Lab.

**IMPACT:** Students learned basic life skills of sewing that encouraged ownership of their work and problem solving skills in the design process. They learned to work together to create a pillow and were excited and engaged in their projects.

**FUTURE PLANS:** These machines will be used in the school's newly designed STREAM program for the 2024-2025 school year. The sewing machines will provide another option for students to design and create and their creations will be donated to charities that can benefit from them.
